Figure 10

Figure 10 represents the new way to celebrate Diwali festival. Diwali is the Hindu festival of lights it fall in the month of karthika one of the most popular festivals celebrated in india by all states through burning crackers as the symbol of victory on Narakasura by sathyabhama. Now a day's cracking fireworks worsens the environment through smoke and noise pollution all creatures suffure allot during these celebrations. Hazardous posisonous gases accumulation in air takes place and cause respiratory disorders to the man kind and also to birds and animals. So CSIR-NEERI has taken an initiation to produce eco friendly fire works to control pollution. Students of RIPER and Faculty has innovated some Green crackers that can minimise the smoke release and edible crackers are also prepared by them to show the new way of joy in celebrating Diwalli. It has promoted awareness about necessity on green crackers
