## Event Details

**Name of Event :** Documentary Screening Chhattisgarh & Short Film Screening on Gariabandh

**Date of Seminar:** 25-02-2021

**Number of Participants:** 75 students + 3 Faculties

### **Objectives of Event:**

- To facilitate & familiarization students of Government Engineering College Valsad, about the paired state Chhattisgarh's Culture,
- To educate students about Gariabandh District of Chhattisgarh.

### **Event description:**

All interested newly admitted first year students of Government Engineering College Valsad are informed to participate in screening of documentary on Chhattisgarh and a short film on Garinadh, which is paired state under Ek Bharat Shresth Bharat Program. Due to Covid Pandemic social distancing was maintained to curb spread of corona virus. Proper care was take and government of India's guidelines were followed.

### **Background Story:**

Government engineering College Valsad was selected as paired institute of Govt. Veer Surendra Say College Garibandh, Chattisgarh's paired institute under RUSA funded institute category of program. Earlier a committed was formed to take decision on programs or events to be carried out under EBSB program, In the first meeting of Committee various agendas were discussed and apart from them is how create awareness about the EBSB program in staff and students of institute. During the discussion of meeting committed has also decided to screen a documentary film on Chhattisgarh and a short film on Garibadnh under EBSB program..

So, on 25<sup>th</sup> February 2021 all staff member and interested students were informed to attend Documentary Screening Chhattisgarh & Short Film Screening on Gariabandh At Mehcanical Department Auditorium of Government Engineering College Valsad.

## Points Observed By Students

At the end of the documentary screening event EBSB Coordinator Prof S V Damania & Club Coordinator Prof D N Patel has asked participated students to elaborate their observation on paired state Chhattisgarh .

- Students have observed that the paired state is very rich in flora and fauna and has rich forest with wildlife.
- Chhattisgarh has an interesting blend of tribes, culture and nature and an is loved by the nation for its distinctive attributes..
- The major factors shown in documentary which drives the economy of Chhattisgarh is mainly due to mining, agriculture, energy production, and manufacturing. Also the state has major deposits of coal, iron ore, dolomite, and other minerals. The central lowland is known especially for its abundant rice production and the state as a whole provides the bulk of the country's *tendu* leaves for bidis. Chhattisgarh also is a significant regional supplier of electricity, from both thermal and hydroelectric generators. The state's manufacturing activities focus largely on metals production..
- About short film on Gariabandh students came to know about glowry of Bhilai Steel plant which is the starting point on Indian railway tracks and has one of the longest railway track built in single mould.
