

## **VILLAGE ECONOMY – AGRICULTURE FIELD -07/10/2019**

On October 07, 2019, the volunteers of Centre for Gandhian Studies visited Kalvoy village in order to make an on the spot study on how vegetables are cultivated, procured and marketed by the local farmers. Rather it was on experiential education on the functioning of the rural economy. Our Study Centre's main aim is to expose the rural based agricultural industry in order to gain the direct experience of dignity of labour and work consciousness.
